Money will not be refundable for any reason.

3. <u>General Terms and Conditions</u>

<u>OWNERSHIP AND LICENSES</u>.

Client Owns All Work Product. As part of this job, the Developer is creating "work product" for the Client. To avoid confusion, work product is the finished product, as wellas drafts, notes, materials, mock ups, hardware, designs, patents, code, and anything else that the Developer works on—that is, creates, designs, develops, invents, works on, or reduces to practice—as part of this project, during the duration of the project. TheDeveloper hereby gives the Client this work product once the Client pays for it in full. This means the Developer is giving the Client all its rights, titles, and interests in and tothe work product, and the Client will be the sole owner of it. The Client can use the workproduct however it wants or it can decide not to use the work product at all. The Client, for example, can modify, destroy, or sell it, as it sees fit.

Developer's Use Of Work Product. Once the Developer gives the work product to the Client, the Developer does not have any rights to it, except those that the Client explicitly gives the Developer here. The Client gives the Developer permission to use the work product as part of the Developer's portfolio and websites, in galleries, and in other media, so long as it is to showcase the Developer's work and not for any other purpose. The Developer is not allowed to sell or otherwise use the work product to make money or for any other commercial use. The Client is not allowed to take back this license, even after the Contract ends.

Developer's Help Securing Ownership. In the future, the Client may need the Developer's help to show that the Client owns the work product or to complete the transfer. The Developer agrees to help with that. For example, the Developer may have to sign a patent application. TheClient will pay any required expenses for this. If the Client can't find the Developer, the Developer agrees that the Client can act on the Developer's behalf to accomplish the same thing.The following language gives the Client that right: if the Client can't find the Developer after spending reasonable effort trying to do so, the Developer hereby irrevocably designates and appoints the Client as the Developer's agent and attorney-in-fact, which appointment is coupled with an interest, to act for the Developer and on the Developer's behalf to execute, verify, and file the required documents and to take any other legal action to accomplish the purposes of paragraph.

Shri Sai Tech Solutions is not responsible for any faulty software provided by any of the vendors supplying software for the development of application and consequences arising out of such usage

This proposal is valid for 15 days unless extended by **Shri Sai Tech Solutions.**

In case Client requires any extension of the proposed acceptance schedule,the associated effort and cost of such extension can be mutually reviewed.

Shri Sai Tech Solutions may display the project on its portfolio after completion of successful project and may get accredit of the work as developed and designed for the site as a part of this contract unless it has been provided in written.

For any circumstances if project needs to be put on Hold/Stop it requires minimum request notice period of 1- 2 weeks along with duration for which request will be addressed by management and final decision on the request will be based on that.

Source code will only be delivered or uploaded on the live server once the due payment is made.

Shri Sai Tech Solutions won't be liable for any delay or problem cause by the Hosting Service provider. We will only help you in installing web application on server, if there is any glitch or problem, client will settle it with Hosting Service provider.
